General Demonstrations:
Tuesday 9am-12pm, 1pm-4pm

Personal appointments:
Wednesday and Thursday

Products to be shown:

**Olympus FV1000 Laser Scanning Confocal**
- Comprehensive line-up of lasers
- SIM scanner for simultaneous imaging and stimulation
- Variable barrier filter spectral separation
- Highest sensitivity PMT and transmitted detectors

**Olympus FV10i-W Laser Scanning Confocal**
- Self-contained housing with anti-vibration system
- 4 diode lasers, 2 PMT channels with variable barrier filters and 1 Phase Contrast channel
- 60x/1.2NA objective with 10x digital zoom
- Motorized stage and incubation system
- Multiple sample holders

**Olympus DSU (Disc Scanning Unit) Confocal**
- CCD Camera for full frame images at 15 frames per second.
- Five interchangeable discs with varying slit width and spacing for optimal collection from 10x to 100x.
- Fully motorized operation.
